CAREER OBJECTIVE

Aspiring Computer Science Engineer looking for an entry-level opportunity in software development or data analytics to apply my skills, learn modern technologies, and contribute to building efficient and impactful solutions.

EDUCATION

Acropolis Institute of Technology and Research

B.Tech in Computer Science (Data Science Engineering); CGPA: 7.58

Indore, M.P.

Nov. 2022 – May 2026

Scholars Home Higher Secondary School

Higher Secondary Education (12th); Percentage: 78%

Satna, M.P.

March 2020

TECHNICAL SKILLS

Languages: JavaScript, C++, SQL, HTML, CSS

Frameworks/Libraries: React.js, Express.js, Tailwind CSS, Shadcn UI

Data Engineering & Analysis: Snowflake, Azure Data Factory (ADF), Pandas, NumPy

Databases: MongoDB, MySQL

Relevant Coursework: Data Structures & Algorithms, DBMS, OOPS, Operating Systems

EXPERIENCE

Deloitte Technology Job Simulation

Virtual Intern (Forage)

Remote

Aug. 2025 – Sept. 2025

- Completed Deloitte job simulation tasks involving software development and debugging practices.
- Worked on problem-solving tasks focused on improving code quality and applying SDLC concepts.
- Prepared technical solutions based on given business requirements using analytical thinking.

PROJECTS

Sawari - Ride Hailing Ecosystem | React, Node.js, Socket.io, Google Maps

[Live](#)

- Built a ride-booking web application with separate modules for riders and drivers, supporting real-time ride updates using **Socket.io**.
- Integrated **Google Maps API** for location search, distance calculation, and route visualization to enhance user experience.
- Developed RESTful APIs using **Node.js/Express** and implemented secure authentication using **JWT** for user session management.
- Designed a responsive UI with separate dashboards for riders and drivers, ensuring smooth booking and ride status updates.

CWS Code - Educational Learning Platform | Next.js, MongoDB, Gemini API

(Code available on GitHub)

- Developed an educational platform with modules for courses and student interaction using the MERN stack.
- Integrated **Gemini API** features such as topic search, mock interview practice, and resume ATS checking.
- Implemented backend functionality using **Next.js API Routes** and integrated **MongoDB** for storing user data and platform content.

Portfolio 3D Web Experience | React, GSAP, Three.js, SCSS

[Live](#)

- Designed and developed an interactive 3D portfolio website using **Three.js** and **GSAP** animations to improve user engagement.
- Implemented smooth scrolling and optimized asset loading techniques for improved performance and responsiveness.
- Deployed the project using **Render** and maintained version control with **GitHub**.
- Enhanced the portfolio with modern UI design and smooth animations to showcase projects and skills in an interactive way.

ACHIEVEMENTS & CERTIFICATIONS

- Deloitte Virtual Intern Certificate:** Recognized for completing practical job simulation tasks. ([View Certificate](#))
- LeetCode:** Solved 200+ DSA problems & 50+ SQL problems. ([Profile Link](#))
- Coding:** Solved 250+ questions across various platforms.

EXTRACURRICULAR ACTIVITIES

- Participated in internal hackathons and coding bootcamps at Acropolis Institute.
- Active member of college technical community, contributing to peer learning in Web Development.
